Official Report of the Proceedings of the 131st Annual UCT Convention

Held at Savannah, Georgia
July 3-6, 2018

The 131st Annual UCT Convention began with the opening ceremony at 6:30 p.m., Monday, July 2, 2018, in the Regency Ballroom of the Hyatt Regency Savannah, Georgia. This was followed by the annual memorial service.

Opening Ceremony

Master of Ceremonies Past International President Randy Young began the Opening Ceremony for the 131st annual convention by welcoming all in attendance. The UCT officers and their spouses were then escorted in and introduced.

The United States and Canadian flags were presented. Following the pledge of allegiance to the United States flag and salute to the Canadian flag, as well as the singing of O Canada and The Star Spangled Banner, the Past International Presidents, Auxiliary Past International Presidents and Past International Presidents' Widows were recognized and UCT President Numan Loafman offered a few remarks about the 130 Challenge.

Memorial Service

The memorial service began with an invocation by UCT Chaplain Susan Vogel and a welcome from Chairperson Linda Poplewski. Eulogies were given in honor of Past International Presidents Lester Kinnison and R. Peter Whitmore, Past UCT Chaplains Carl (Harvey) Holmgren and Melvin Schwartz, Past Fraternalist of the Year William Shackel and home office employee Ann Marshall.

Deceased past regional counselors were recognized, and a moment of silence was observed in honor of the men and women in the American and Canadian Armed Forces. A benediction by the UCT Chaplain Susan Vogel closed the program.

Opening Business Session

Tuesday, July 3, 2018

The business session of the 131st Annual UCT Convention was called to order at 3:05 p.m. on Tuesday, July 3, 2018, in the Regency Ballroom of the Hyatt Regency Savannah by UCT President Numan Loafman. Preceding the start of the business session were presentations about meaningful fraternal service by Joe Annotti, president and CEO of the American Fraternal Alliance, and the need for an insurance oversight board by attorney Richard Barnhart.

All UCT officers were present and at their stations. The password was taken from those in attendance and it was ascertained that all present were councilors. UCT Director Mary Applegate escorted UCT Chaplain Susan Vogel to the altar to open the

Bible for the session. UCT Chaplain Vogel offered the invocation.

The pledge of allegiance was recited and a salute was made to the Canadian flag. UCT President Numan Loafman then announced the 2018 UCT Convention Committees:

UCT Secretary-Treasurer Steve Desselles made a motion to accept the proceedings of the 130th annual UCT convention. Chairman of the Board Gordon Woodworth seconded the motion, and it passed unanimously.

UCT Secretary-Treasurer Steve Desselles then conducted the roll call of UCT officers, regional council delegates and standing committees. Voting strength was determined to be 137. The sheriff and deputies were then appointed.

Report of the UCT President

My thanks to all of you who helped us in our efforts to “Blaze New Trails for UCT” during the past year. Thanks for getting involved in your local councils and communities. Also, for finding new ways to increase UCT awareness to grow our membership.

This year, 297 members sponsored new members, 60 members qualified for the Pacesetter’s Club by sponsoring three or more new members, 13 members qualified for Drummer’s status by sponsoring 10 or more new members and one member qualified for the President’s Council. We also had 49 members under age 18. This is fantastic! Now, let’s get these members active.

Throughout the year, members, councils and UCT leadership got on board with the 130 Challenge. More than \$15,000 was raised and donated as part of the Challenge, and members and councils dedicated more than 3,400 hours to community service and donated more than 7,500 items to charity. And to top it off, 102 new members were signed up through the Challenge. Thank you. This is a great job by everyone who participated.

During 2017, scholarships totaling \$47,620 were awarded to 94 qualified applicants through the UCT Scholarship Program to individuals pursuing college degrees or certification to instruct persons with intellectual disabilities. The May E. Tisdale Scholarship Fund awarded 50 scholarships of \$500 each to children and grandchildren of UCT members.

An overall total of \$12,000 per year for four years was awarded to three individuals through the UCT Heaston Scholarships. Scholarships are awarded to students with the equivalent of high school senior status. Students must be enrolled and entering a college program in the coming academic year.

Dianna and I have had a wonderful year traveling the U.S. and Canada. It has been a privilege spending time with members and councils that are contributing tireless efforts for the good of UCT. I want to thank the members of my home region of Texas for their support and all of you for your wonderful hospitality and your inspiring dedication to UCT.

I want to thank the Board of Governors for their cooperation and encouragement throughout the year. There were times when difficult decisions had to be made to cement UCT’s future. This could not have been accomplished without the team spirit and support that has made serving on this Board such a positive experience.

We cannot give enough credit and praise to the Management Team of Kevin Hecker, Sandy Shafer and Ron Ives, along with Linda Fisher, David Knapp and Kate Chillinsky, for drawing much-needed awareness to our organization this year through marketing and social media. Director of Sales Bob Miller did a great job focusing on increasing sales of our insurance products through his work with our IMOs. The entire staff kept UCT running smoothly.

Best wishes to Chris and Corey Phelan for a successful year ahead as they encourage positive change to ensure UCT continues to grow and flourish. I know all of you will offer them your support. Thank you.

Numan Loafman
UCT President

Past International President Dianna Loafman made a motion that the report be accepted and referred to the State of the Order Committee. The motion was seconded and passed unanimously.

Report of the UCT Board of Governors

The UCT Board has had another busy year. The annual convention was well attended and very productive. For the second year in a row, the annual convention banquet featured a more relaxed and informal theme, which everyone seemed to enjoy. The convention is that one time of year when members from across North America get together to renew old friendships and share stories of what their councils are doing. It’s also a great time for new members to learn more about what councils are doing as well.

Following the conclusion of the business session and installation of officers, members of the Board held their first meeting, which serves as the annual organizational meeting. At that meeting we said our good-byes to Tom Hoffman and Jon Lind and welcomed new Director Ken Milliser and Chaplain Susan Vogel to the Board. Board meeting dates were announced for October (during this meeting we also conduct new officer orientation and have a strategic planning session), December 2017 and March and June/July 2018. Mixed into all of this we held a couple of conference calls as the need arose.

Again this year our management team was in place to help guide us. The team reports to the Executive Committee on a monthly basis on issues or concerns that the Board needs to be aware of. We thank them, as well as the entire UCT Home Office staff, for their dedication to our organization.

The Board continues to monitor the U.S. and Canadian business on a quarterly basis and some tough decisions were made on the insurance side.

UCT continues to support many charitable causes through UCT Charities Trust. The 2017 convention service project was the Meyer Center for Special Children. Once again this was a huge success thanks to all of our generous members who donated to the cause.

A lot of time and resources have been focused this year on the new corporate governance issues that our regulators are putting in place. Training for the new corporate governance policies has begun for office staff and Board of Governors as well. This has prompted our management and Board to rethink qualifications needed to serve on the UCT Board of Governors in the future. I assure you the changes that are now taking place are in the good hands of the management team.

This is but a brief synopsis of the Board highlights from this year. To get the full picture of the hard work and effort that your Board members do during the year, please go to the complete minutes of the UCT Board of Governors, which is online on the password protected Members' area of the UCT website at www.uct.org.

A special thanks goes to Numan and Dianna Loafman for their dedicated service to our organization as they traveled across North America representing UCT this year.

Finally, a special thank you to my wife, Judy, for her support these past six years and to all the Board members I had the privilege to work with over this period as well as the home office staff. They are second to none. It has been an honor and a privilege to have met and worked with all of you.

The following information highlights the council activity and reported past international president, past regional president, past fraternalist of the year and past chaplain deaths for UCT, as well as membership data for the year April 1, 2017, to March 31, 2018.

Also included is the benevolent report for the year ending December 31, 2017, and a UCT Charities update. The lists of officer deaths were compiled from information reported to the home office.

Thank you for allowing me to serve as your UCT Secretary-Treasurer this year. As always, it has been a pleasure to work with the home office staff and my fellow Board members.

Best wishes to Gorden Woodworth as he moves off the Board of Governors.

Independent Auditor's Report & Statutory Financial Statements

**The Order of United Commercial Travelers of America
For the years ended December 31, 2017 and 2016**

**Board of Governors
The Order of United Commercial Travelers of America
Columbus, Ohio**

Report on the Financial Statements

We have audited the accompanying statutory financial statements of The Order of United Commercial Travelers of America (Order), which comprise the statutory statements of admitted assets, liabilities and surplus and other funds as of December 31, 2017 and 2016, and the related statutory statements of operations and changes in surplus and other funds, and cash flows for the years then ended, and the related notes to the statutory financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these statutory financial statements in accordance with the accounting practices prescribed or permitted by the Ohio Department of Insurance. Management is also responsible for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of statutory financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these statutory financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statutory financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the statutory financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the statutory financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the statutory financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness

of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the statutory financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1 to the statutory financial statements, the Order prepared these financial statements using accounting practices prescribed or permitted by the Ohio Department of Insurance, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between these statutory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the *Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles* paragraph, the statutory financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of The Order of United Commercial Travelers of America as of December 31, 2017 and 2016, or the results of its operations or its cash flows for the years then ended.

Opinion on Regulatory Basis of Accounting

In our opinion, the statutory financial statements referred to above present fairly, in all material respects, the admitted assets, liabilities and surplus and other funds of The Order of United Commercial Travelers of America as of December 31, 2017 and 2016, and the results of its operations and its cash flows for the years then ended, on the basis of accounting described in Note 1.

**Notes to Statutory Financial Statements
December 31, 2017 and 2016**

Note 1: Nature of Operations and Summary of Significant Accounting Policies

Nature of Operations

The Order of United Commercial Travelers of America (Order) conducts fraternal activities and provides fraternal benefits, accident, health and life insurance and annuity products to its members throughout the United States and Canada (through the Canadian branch).

The Order is chartered and licensed in the State of Ohio and is licensed in the majority of states and all provinces of Canada. As such, the Order is subject to the regulations of the Ohio Department of Insurance (Department) and the regulations of each state and provinces in which it operates. The Order undergoes periodic financial examination by the Department and insurance regulatory agencies of the states and provinces that choose to participate.

Use of Estimates

Preparation of the statutory financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Basis of Presentation

The accompanying financial statements of the Order have been prepared in conformity with accounting practices prescribed or permitted by the Department, which practices differ from accounting principles generally accepted in the United States (GAAP). Although the effects have not been determined, the more significant variances from GAAP are as follows:

Investments – Investments in bonds are reported at amortized cost or fair value based on their National Association of Insurance Commissioners (NAIC) rating; for GAAP, such fixed maturity investments would be designated at purchase as held to maturity, trading or available for sale. Held-to-maturity fixed maturity investments would be reported at amortized cost and the remaining fixed maturity investments would be reported at fair value with net unrealized holding gains and losses reported in operations for those designated as trading and as a separate component of equity for those designated as available for sale.

Valuation Reserves – Under a formula prescribed by the NAIC, the Order defers the portion of realized gains and losses on sales of fixed income investments, principally bonds, attributable to changes in the general level of interest rates and amortizes those deferrals over the remaining period to maturity of the individual securities sold. The net deferral is reported as the “interest maintenance reserve” in the accompanying statements of admitted assets, liabilities and surplus and other funds. Realized gains and losses are reported in operations net of transfers to the interest maintenance reserve. Under GAAP, realized capital gains and losses would be reported in the income statement in the period that the assets giving rise to the gains or losses are sold.

The “asset valuation reserve” (AVR) provides a valuation allowance for invested assets. The AVR is determined by a NAIC prescribed formula with changes reflected directly in surplus; AVR is not recognized for GAAP.

Policy Acquisition Costs – The costs of acquiring and renewing business are expensed when incurred. Under GAAP, costs related to the successful acquisition of traditional life insurance and certain long-duration accident and health insurance, to the extent recoverable from future policy revenues, would be deferred and amortized over the premium-paying period of the related policies using assumptions consistent with those used in computing policy benefit reserves. For universal life insurance and investment products, to the extent recoverable from future gross profits, deferred policy acquisition costs are amortized generally in proportion to the present value of expected gross profits from surrender charges and investment, mortality and expense margins.

Nonadmitted Assets – Certain assets designated as “nonadmitted,” principally past-due agents’ balances, prepaid expenses, furniture and equipment and other assets not specifically identified as an admitted asset within the NAIC Accounting Practices and Procedures Manual are excluded from the accompanying statements of admitted assets, liabilities and surplus and other funds and are charged directly to unassigned surplus. Under GAAP, such assets are included in the balance sheet.

Benefit Reserves – Certain policy reserves are calculated based on statutorily required interest and mortality assumptions rather than on estimated expected experience or actual account balances as would be required under GAAP.

Life and Annuity Policies – Revenue for life and annuity policies with mortality or morbidity risk, except for guaranteed interest and group annuity contracts, consist of the entire premium received and benefits incurred represent the total of death benefits paid and the change in policy reserves. Premiums received for annuity contracts are recorded using deposit accounting, and credited directly to an appropriate policy reserve account, without recognizing premium income. Under GAAP, premiums received in excess of policy charges would not be recognized as premium revenue and benefits would represent the excess of benefits paid over the policy account value and interest credited to the account values.

Reinsurance – Policy and contract liabilities ceded to reinsurers have been reported as reductions of the related reserves rather than as assets as would be required under GAAP.

Commissions allowed by reinsurers on business ceded are reported as income when incurred rather than being deferred and amortized with deferred policy acquisition costs as required under GAAP. Commissions on business retroactively ceded are reported directly in surplus.

Statements of Cash Flow – Cash and short-term investments in the statements of cash flow represent cash balances and investments with initial maturities of one year or less at the date of acquisition. Under GAAP, the corresponding caption of cash and cash equivalents include cash balances and investments with initial maturities of three months or less.

Comprehensive Income – Comprehensive income is not determined for statutory reporting purposes, whereas, for GAAP, such amounts are determined.

Other significant accounting policies are as follows:

Investments

Bonds and short-term instruments are stated at values prescribed by the NAIC as follows:

Bonds are stated at amortized cost using the scientific to worst amortized method.

Short-term investments include investments with maturities of less than one year at the date of acquisition. Short-term investments are principally stated at amortized cost, which approximates fair value.

Mortgage-backed securities are valued at amortized cost using the interest method including anticipated prepayments. Prepayment assumptions are obtained from dealer surveys or internal estimates and are based on the current interest rate and economic environment. The retrospective adjustment method is used to value all such securities except principal-only and interest-only securities, which are valued using the prospective method.

Policy loans are reported at unpaid principal balances.

Realized capital gains and losses are determined using the specific identification basis.

Factors considered by the Order in determining whether declines in the fair value of securities are other than temporary include (1) the significance of and duration of the decline; (2) the Order's ability and intent to retain the investment for a sufficient period of time for it to recover; and (3) input from investment advisors regarding liquidity, business prospects and overall financial condition of the issuer. Where such analysis results in a conclusion that declines in fair values are other than temporary, the securities are written down to fair value.

Furniture and Equipment

The admitted value of the Order's electronic data processing equipment and operating software is limited to 3 percent of surplus. The admitted portion is reported at cost, less accumulated depreciation of \$2,931,896 and \$2,845,213 at December 31, 2017 and 2016, respectively. Electronic data processing equipment and software are depreciated and amortized using the straight-line method over the lesser of its useful life or three years. Other furniture and equipment are included in nonadmitted assets and are depreciated using the straight-line method over five years. Depreciation and amortization expense charged to operations in 2017 and 2016 was \$99,787 and \$89,245, respectively.

Premiums

Life and accident and health premiums are recognized as revenue when due. Premiums for annuity policies with mortality and morbidity risk, except for guaranteed interest and group annuity contracts, are also recognized as revenue when due.

Premiums received for annuity policies without mortality or morbidity risk and for guaranteed interest and group annuity contracts are recorded using deposit accounting.

Premiums are credited to revenue over the premium-paying period of the policies. Amounts received from periods beyond year-end dates are included in the liability for premiums received in advance.

Benefits

Life, annuity and accident and health disability benefit reserves are developed by actuarial methods and are determined based on published tables using statutorily specified interest rates and valuation methods that will provide, in the aggregate, reserves that are greater than or equal to the minimum or guaranteed policy cash values or the amounts required by the Ohio Department of Insurance.

The Order waives deduction of deferred fractional premiums on the death of life and annuity policy insureds and returns any premium beyond the date of death. Surrender values on policies do not exceed the corresponding benefit reserves.

Claim and Policy Reserves

The liability for accident and health reserves is estimated principally based upon past experience for pending, incurred but not reported and reopened claims settlement costs. The liability provided for accident and health reserves is particularly sensitive to the recent claims frequency and severity experience of the Order. Although considerable variability is inherent in such estimates, management believes that the reserves for unpaid claims are adequate. The estimates are continually reviewed and adjusted as necessary as experience develops or new information becomes known; such adjustments are included in current operations.

The mean reserve method is used to adjust the calculated terminal reserve to the appropriate reserve at December 31. Mean reserves are determined by computing the regular mean reserve for the plan at the rated age and holding, in addition, one-half of the extra premium charge for the year Policies issued after January 1, 1993, for substandard lives, are charged an extra premium plus the regular premium for the true age. Mean reserves are based on appropriate multiples of standard rates of mortality. An asset is recorded for deferred premiums net of loading to adjust the reserve for model premium payments.

The mortality tables, interest rates and valuation methods used for the majority of life insurance policies in force and current issues are the 1980 and 2001 Commissioner's Standard Ordinary (CSO) tables, respectively, with interest rates ranging from 2.5 percent to 5.0 percent, utilizing interpolated mean reserves.

Reserves for annuity contracts are established on a modified reserve basis under the Commissioner's Annuity Reserve Valuation Method (CARVM). The effect of using CARVM is to offset partially the effect of immediately expensing acquisition costs by providing a policy reserve increase in the first policy year which is less than the reserve increase in renewal years. The life policy reserves on Canadian business are based on methods that equal or exceed the reserves as required by Canadian statutory accounting practices.

At December 31, 2017 and 2016, the Order's net annuity reserves of \$810,869 and \$780,329, respectively, are subject to a discretionary withdrawal provision of 10 percent of accumulated value per year without surrender charges.

Tabular interest, tabular less actual reserve released and tabular cost have been determined by formulas in the annual statement instructions. Tabular interest on funds not involving life contingencies are calculated monthly as the product of the mean amount of funds times the valuation rate of 4 percent.

The Order had \$1,231,610 and \$1,172,309 of insurance in force at December 31, 2017 and 2016, respectively, for which the gross premiums are less than the net premiums with a premium deficiency reserve of \$3,617 and \$3,177 at December 31, 2017 and 2016, respectively.

The liabilities related to guaranteed investment contracts and policyholder funds left on deposit with the Order generally are equal to fund balances less applicable surrender charges.

Foreign Exchange Liability

The Order has applied the provision of SSAP 23, Foreign Currency Transactions and Translations, to the financial statements. The foreign exchange liability reflects the application of the exchange rate to the excess of assets over liabilities denominated in Canadian Dollars and converted to U.S. Dollars and is directly charged or credited to surplus.

Reinsurance

Reinsurance premiums and benefits paid or provided are accounted for on a basis consistent with those used in accounting for original policies issued and the terms of the reinsurance contract.

Federal Income Taxes

The Internal Revenue Service has issued a determination letter stating the Order is exempt from U.S. federal income taxes under provision of Section 501(c)(8) of the Internal Revenue Code.

As a fraternal benefit society, the Canadian operations are also exempt from Canadian federal income taxes.

Under the Canadian Income Tax Act, the Canadian life insurance operations of the Order are subject to certain Canadian income taxes.

Subsequent Events

The Company evaluated the impact of subsequent events through May 3, 2018, representing the date at which the statutory-basis financial statements were issued. Effective April 24, 2018, the Canadian branch of the Order is no longer writing new business in Canada.

Management concluded that none of the noted unrealized losses are other than temporary. The process to support this conclusion requires management to make material estimates. Management believes the debt securities' unrealized losses are not other than temporary as the Order has the ability and intent to hold the investments for a period of time sufficient for a forecasted market price recovery up to or beyond the cost of the investment.

Note 3: Reinsurance

Certain premiums and benefits are ceded to other insurance companies under various reinsurance agreements with unaffiliated reinsurers. The ceded reinsurance agreements provide the Order with increased capacity to write larger risks and maintain its exposure to loss within its capital resources. The Order remains liable if the reinsurers do not meet their obligations.

The Order's ceded reinsurance arrangements reduced certain items in the accompanying statutory financial statements by the following approximate amounts:

	2017		2016	
Premiums	\$	41,080,000	\$	46,105,000
Benefits paid or provided		30,423,000		32,772,000
Policy benefit liabilities		23,010,000		24,422,000
Claim benefit liabilities		3,405,000		3,928,000

Reinsurance agreements do not relieve the Order from its obligations to policyholders. Failure of reinsurers to honor their obligations could result in losses to the Order. The Order evaluates the financial condition of its reinsurers and monitors its exposure to significant losses from reinsurer insolvencies.

Note 4: Employee Benefit Plans

The Order sponsors a contributory, defined contribution plan that covers substantially all full-time employees. At the Order's discretion, an amount equal to a percentage of each eligible employee's compensation is contributed to the Plan. There was no charge to operations for this plan during 2017 or 2016.

The Order also has a 401(k) savings plan covering substantially all of its employees. The Plan provides that employees may make contributions to the Plan. The Order contributes a matching percentage to this plan of each eligible employee's contribution. The charge to operations for this plan was \$97,502 and \$97,139 for 2017 and 2016, respectively.

Note 5: Operating Leases

Noncancellable operating leases primarily for office facilities expire in various years through July 2022. Future minimum lease payments were as follows:

2018	\$	419,980
2019		386,409
2020		390,158
2021		381,107
2022		189,215

Total minimum lease payments	\$	1,766,869
------------------------------	----	-----------

Rental expense for all leases was \$629,532 and \$672,204 for 2017 and 2016, respectively.

In 2013, the Order signed a new lease on the office facility that included a five-month rent holiday, leasehold allowance and escalating rents. The rental expense under the lease is being recorded on a straight-line basis.

Note 6: Premiums Deferred and Uncollected

The Order reports deferred and uncollected life insurance premiums on policies in force, net of loading charges. Deferred and uncollected premiums as of December 31, 2017 and 2016, on a gross and net basis are as follows:

	2017		2016	
	Gross	Net of Loading	Gross	Net of Loading
Ordinary new business	\$ 1,509	\$ 3,578	\$ 3,187	\$ 2,140
Ordinary renewal	298,716	305,622	323,946	329,209
	300,225	309,200	327,133	331,349
Less reinsurance	(225,559)	(225,559)	(249,937)	(249,937)
Total	\$ 74,666	\$ 83,641	\$ 77,196	\$ 81,412

Note 7: Accident and Health Claim Reserves

The following table provides a reconciliation of the beginning and ending balances of accident and health claim reserves, net of reinsurance recoverable:

	2017	2016
Accident and health claim reserves at beginning of year	\$ 1,172,798	\$ 1,460,228
Add provision for claims occurring in:		
Current year	7,770,456	7,842,715
Prior years	(319,193)	(193,116)
Total incurred	7,451,263	7,649,599
Deduct payments for claims occurring in:		
Current year	6,626,579	6,683,991
Prior year	839,712	1,253,038
Total paid	7,466,291	7,937,029
Accident and health claim reserves at end of year	\$ 1,157,770	\$ 1,172,798

The foregoing reconciliation shows that \$319,193 and \$193,116 of favorable development in reserves emerged in 2017 and 2016, respectively. The favorable developments in 2017 and 2016 are a result of the effects of settling claims for less than expected.

Note 8: Annuity Reserves

At December 31, 2017 and 2016, the Order's annuity reserves and deposit fund liabilities that are subject to discretionary withdrawal (with minimal or no adjustment), are summarized as follows:

	Amount	Percent
December 31, 2017		
Subject to discretionary withdrawal at book value without adjustment (with minimal or no charge or adjustment)	\$ 3,055,687	<u>100.00%</u>
Less reinsurance ceded	2,244,818	
Net annuity reserves and deposit fund liabilities	\$ 810,869	
December 31, 2016		
Subject to discretionary withdrawal at book value without adjustment (with minimal or no charge or adjustment)	\$ 3,211,311	<u>100.00%</u>
Less reinsurance ceded	2,430,982	
Net annuity reserves and deposit fund liabilities	\$ 780,329	

Note 9: Surplus and Other Funds

Life and health insurance companies are subject to certain Risk-based Capital (RBC) requirements as specified by the NAIC. Under those requirements, the amount of surplus and other funds maintained by a life and health insurance company is to be determined based on the various risk factors related to it. The Order exceeded its RBC requirements as of December 31, 2017 and 2016.

Note 10: Assumption Reinsurance

In December 2010, the Order assumed 100 percent of the policy liabilities, totaling \$408,855, of National Masonic Provident Association through an Assumption Reinsurance Agreement. Pursuant to the agreement, the Association's policies were novated to the Order as if such policies were its direct obligations and originally issued by the Order. The Order received assets of \$1,002,374 in compensation for the transaction and recorded deferred income of \$593,519 which is being amortized over 10 years.

Note 11: Fair Value Measurements

Financial instruments are periodically measured at fair value, such as when impaired, or for certain bonds when carried at the lower of cost or market. The fair value of an asset is the amount at which that asset could be bought or sold in a current transaction between willing parties, that is, other than in a forced or liquidation sale.

Fair values are based on quoted market prices when available. When market prices are not available, fair value is generally estimated using discounted cash flow analyses, incorporating current market inputs for similar financial instruments with

comparable terms and credit quality (matrix pricing). In instances where there is little or no market activity for the same or similar instruments, the Order estimates fair value using methods, models and assumptions that management believes market participants would use to determine a current transaction price. These valuation techniques involve some level of management estimation and judgment which becomes significant with increasingly complex instruments or pricing models. Where appropriate, adjustments are included to reflect the risk inherent in a particular methodology, model or input used.

SSAP 100 Fair Value Measurements establishes a three-level hierarchy for fair value measurements. The hierarchy gives the highest ranking to fair values determined using unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest ranking to fair values determined using methodologies and models with unobservable inputs (Level 3). An asset's classification is based on the lowest level input that is significant to its measurement. For example, a Level 3 fair value measurement may include inputs that are both observable (Levels 1 and 2) and unobservable (Level 3). The levels of the fair value hierarchy are as follows:

Level 1 – Values are unadjusted quoted prices for identical assets in active markets accessible at the measurement date.

Level 2 – Inputs include quoted prices for similar assets in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for the term of the instrument. Such inputs include market interest rates and volatilities, spreads and yield curves.

Level 3 – Certain inputs are unobservable (supported by little or no market activity) and significant to the fair value measurement. Unobservable inputs reflect the Order's best estimate of what hypothetical market participants would use to determine a transaction price for the asset at the reporting date.

There were no financial assets or liabilities measured at fair value at December 31, 2017 and 2016.

Fair Value of Financial Instruments

The following tables present estimated fair values of the Order's financial instruments and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2017 and 2016:

2017

	Statutory Admitted Value	Aggregate Fair Value	Level 1	Level 2	Level 3
Cash and short-term investments (outstanding payments)	\$ (290,007)	\$ (290,007)	\$ (290,007)	\$ -	\$ -
Bonds	15,457,033	16,043,575	-	16,043,575	-
Policy loans	788,822	788,822	-	788,822	-
Total	\$ 15,955,848	\$ 16,542,390	\$ (290,007)	\$ 16,832,397	\$ -

2016

	Statutory Admitted Value	Aggregate Fair Value	Level 1	Level 2	Level 3
Cash and short-term investments	\$ 185,741	\$ 185,741	\$ 185,741	\$ -	\$ -
Bonds	15,352,487	15,848,997	-	15,848,997	-
Policy loans	783,633	783,633	-	783,633	-
Total	\$ 16,321,861	\$ 16,818,371	\$ 185,741	\$ 16,632,630	\$ -

The following discussion outlines the methodologies and assumptions used to determine the estimated fair values of the Order's financial instruments. Considerable judgment is required to develop these fair values. Accordingly, the estimates shown are not necessarily indicative of the amounts that would be realized in a one-time, current market exchange of all the Order's financial instruments.

Cash and Short-Term Investments

The carrying amounts for these instruments approximate fair value.

Bonds

The fair value of bonds were determined from quotations received from nationally recognized pricing services and brokers/dealers.

Policy Loans

Policy loans are generally issued with coupon rates below market rates and are considered early payments of the life benefit. As such, the carrying amounts of these instruments are a reasonable estimate of their fair value.

Note 12: Risks and Uncertainties

Contingent Liabilities

The Order is subject to claims and lawsuits which arise primarily in the ordinary course of business. It is the opinion of management that the disposition or ultimate resolution of such claims and lawsuits will not have a material adverse effect on the financial position of the Order.

Report of Home Office Operations

The UCT Management Team consisting of Kevin Hecker, CFO; Ron Ives, CIO; and Sandy Shafer, Vice President of Fraternal, continue to lead home office operations. This approach was extended through 2018 by the UCT Board of Governors.

UCT experienced a loss in 2017 due, in part, to sales not meeting projections. However, some progress was made with sales in the United States. Operationally, the modification of some product aspects has helped to improve sales and enhance member involvement and awareness. We have been in discussion with our reinsurer and they agreed on us refiling our Medicare Supplement rates in several states which we hope will increase sales. Through our marketing department, we will be revamping brochures and continuing to develop webinars.

UCT hosted an agent roundtable for our major IMO partners in the United States. This roundtable enabled us to discuss how we can help the agents to improve sales,

strengthen our sales support staff and educate them on the selling points of what a fraternal organization is....more than just an insurance company. UCT's fraternal team had the opportunity to educate these agents in depth on the benefits of being part of a fraternal organization.

The agents wondered why our members were not using the fraternal products to entice members to join. They felt that our fraternal products were excellent supplemental policies. They also felt that the benefits offered with a fraternal membership were excellent tools to encourage individuals to join.

Sales efforts in Canada have been slow to develop. Our Canadian members were notified that effective April 25, 2018, we would no longer offer insurance products in Canada. We will continue to encourage fraternal memberships throughout Canada.

Moving forward, our long term goals will be to:

- Establish slow steady sales growth while achieving a positive bottom line
- Increase member activity in local councils
- Promote UCT brand awareness

Due to lapses, deaths and cancellations, membership declined in calendar year 2017 by 2,247 members. As we stated last year, we will hopefully see a leveling off of membership this year and start a slow but steady growth in membership during 2019.

2017 saw positive growth digitally for UCT. The hiring of a new marketing manager at the beginning of the year helped kick start the growth. The focus was to update the current UCT website as much as possible in-house to give it a fresh look. UCT fraternal staff removed the video on the homepage and replaced it with a rotating picture slideshow which includes links to various hot spots on the website. We also reorganized the homepage to include clickable icons to webpages that are visited often by UCT members.

We also crafted a monthly blog schedule to create and publish posts on the UCT website more frequently. A number of UCT employees contributed to the blog throughout the year, allowing us to cover a variety of topics.

By cleaning up the website and creating more content throughout the year, we were able to post to the UCT Facebook page almost daily during 2017. New Facebook page likes were added and more of our members and local councils got involved on our social platform.

Overall, we were able to grow UCT's website traffic by 95 percent during 2017, compared to 2016. We saw monthly page views get as high as 31,000 visits. In 2016, the highest month only reached 17,000 page views. Our monthly average for 2017 stuck close to 25,000 visits. Most of the traffic was driven by UCT's agent force, but also included fraternal members logging in, visiting blog posts and getting information on various programs offered to members.

Several of our Fraternal Fund recipients have seen an increase in their monthly benefit checks with the passage of the amendment last year.

UCT Charities:

- During 2017, 94 scholarships totaling \$47,620 were awarded from UCT Charities and \$39,000 was awarded to UCT Heaston Scholarship recipients.
- \$10,000 was donated to ASHA, which fulfills our three-year commitment to ASHA and ends our sponsorship with them.
- \$5,000 - Advancing the Rights of Citizens with Developmental Disabilities (ARC)
- Canadian Contributions - \$10,000 to Alberta Rehabilitation Brain Injury (ARBI)

The Columbus and Calgary offices thank everyone for their support and willingness to try new things to benefit UCT. As one of our IMO's pointed out, UCT needs to focus on the positivity of being a company/organization that has been around for 130 years. Not many can boast about that.

We need you to spread the word in your community!

Report of the Representatives to the American Fraternal Alliance

The 131st Annual Meeting of the American Fraternal Alliance was held September 6-8, 2017, in Chandler, Arizona.

The meeting featured two days of motivating presentations and workshops, including two keynote speakers, Shabnam Mogharabi, CEO and Executive Producer at SoulPancake, and Dr. Robert Cialdini, President of INFLUENCE AT WORK. The presentations and workshops covered a variety of topics including regulatory and legislative issues, mergers among fraternal, disruption within the agent field force, convention analysis and long-term strategic planning. Also, the final contenders for the Alliance's branding project were revealed and discussed.

The Alliance's Grow Younger Task Force held an Innovation Forum to discuss young professionals in the fraternal industry. The panelists, which included UCT Marketing Manager Kate Chillinsky, talked about various aspects and experiences related to the topic.

Report of the Board Candidate Qualifying Committee

The 2017-2018 BCQC Committee is made up of Board Members Glenn Suever and Dave Syrota along with Past International Presidents Darlene Gillies, Craig Alcorn and Jerry Giff. Sandy Shafer serves as the recording secretary/advisor for this committee.

The committee held an organizational meeting on July 27, 2017. Darlene Gillies was elected chairman. The position of chair rotates every year between the PIPs and the Board, per agreement by both groups on July 5, 2014. Also during this meeting, the qualification evaluation criteria was discussed and Jerry Giff and Glenn Suever volunteered to update the rating form used.

Following the 2017 convention, the packet was reviewed, updated and sent out on August 2, 2017, to those individuals who were presented for future consideration during the convention as well as to the past international presidents, regional presidents and regional secretary-treasurers.

The next meeting of the committee was held on September 26, 2017. The updated rating form was reviewed. The committee strongly feels that it is of utmost importance that the criteria used on the rating form matches the questions asked on the questionnaire that each candidate completes. Sandy Shafer reported that, to date, no completed packets had been received, postmarked by the new deadline date of December 31. The committee set February 15, 2018, as the date for review/evaluation of the candidates.

The final meeting of the BCQC was held on February 15, 2018, at which time two qualification packets were reviewed. Only one of the candidates wished to run for the position of director and the other was for future consideration. The following individual was qualified to run for the one open position of director during the 2018 convention in Savannah, Georgia: Stanna Funk – Director

Sandy Shafer sent out letters and emails on behalf of the BCQC to the two candidates who submitted a packet informing them of the committee's decision.

Emails were also sent to the Board and the past international presidents informing them that Stanna Funk had been qualified to run for the position of director. Stanna's name will also be included in the regional facilitator's packet so it can be announced at each regional convention.

Discussions were held on the new scoring form and how improvements can be made for the future. It was discussed that computer literacy and public speaking be items added to the rating form. The Board was sent a copy of the questionnaire currently being used and were asked for their input on suggested changes.

The committee held a meeting on July 1, 2018, in Savannah to complete a combined self-evaluation. Personal self-evaluations were sent to Darlene Gillies in May. The committee felt the charter was followed, and suggestions were made to continue improving the packets and scorecard.

We appreciate the opportunity to serve UCT on this very important committee ensuring that qualified candidates are elected to serve on the UCT Board of Governors, and we thank you for the opportunity to serve.

Darlene Gillies, Chair, Past International President
Craig Alcorn, Past International President
Jerry Giff, Past International President
Glenn Suever, Board of Governors
Dave Syrota, Board of Governors
Sandy Shafer, Advisor

Past International President Craig Alcorn made a motion that the report be accepted and placed on file. Past International President Jerry Giff seconded the motion, which passed unanimously.

Volunteer of the Year Report

I am Past International President Dianna Loafman and with me is the 2018 Volunteer of the Year award committee. I will let them introduce themselves.

As always, this year's candidates were all impressive in the support they provide their UCT local councils and their local communities. However, I believe the committee will agree that the member we chose as our 2018 Volunteer of the Year stands out in every way possible and more than deserves this honor.

This year's honoree makes a big difference in her community through the UCT local council projects she organizes and supports and through her individual volunteer efforts.

Through her local council she has been involved with coordinating Join Hands Day projects with local youth, assisting with UCT safety poster contests, organizing safety days to benefit area students, volunteering for Special Olympics events and more. The amount of time she puts into these projects is roughly 500 plus hours each year – and that's only a portion of what she does.

Our Volunteer of the Year has also proved herself to be an asset to her local community through the 1,000 hours of personal volunteering she gives each year that includes working in palliative care and sitting with terminally ill patients in their final hours, visiting bereaved families in their homes, driving cancer patients to chemotherapy and radiation treatments, and assisting at the local flu clinic.

Last but not least, this year's honoree helps mobilize younger generations through working with them on projects like Join Hands Day and the local fair parade float and through mentoring youth baseball, basketball and hockey athletes.

It has been said that volunteers don't get paid, not because they're worthless, but because they are priceless. Our committee thinks this year's honoree epitomizes this pricelessness, and that's why we chose her as the 2018 Volunteer of the Year – the 12th one from the Manitoba-Saskatchewan region. Join us in congratulating Past International President Darlene Gillies from Neepawa, Manitoba Council 924.

As always, we want to remind you that there are many deserving UCT volunteers throughout North America that can and should be nominated for Volunteer of the Year, so we continue to encourage each region to make sure at least one member from their state, province or area is nominated for this honor next year.

Each regional president and secretary, as well as each local president and secretary, will receive nomination forms in early autumn. It's up to these officers to work together to make sure a nomination is submitted from their region.

We would like to thank President Numan Loafman for the privilege of serving on this committee.

Morning Business Session

Wednesday, July 4, 2018

Following a presentation by UCT Community Outreach Manager Keith Ward, UCT President Numan Loafman called the meeting to order at 8:30 a.m. UCT Director Mary Applegate escorted UCT Chaplain Susan Vogel to the altar to open the Bible and give the day's invocation. The sheriffs then gave a brief report.

Report of the Examining Finance Committee

An on-site review was performed at the UCT home office in Columbus, Ohio. The review was conducted in accordance to the scope, responsibilities and roles of this committee, which are focused on the issues and concerns of the UCT membership.

In accordance with the UCT standing policy for the EFC, all members have executed a confidentiality agreement.

The 2017 financial statements reviewed were audited by BKD, a professional accounting firm. Throughout the year the audit committee also had meetings and was instrumental in assisting the Board in fulfilling its responsibility of providing oversight and integrity to the accounting, auditing and reporting practices of the Order.

Being limited in time and resources given us, it would be impossible, as well as redundant, to perform an audit, as such, of the financial reports. Therefore, we relied on the audited financial statements to gain an understanding of our statutory accounting practices and how reporting to the standards of the Ohio Department of Insurance (ODI) and the National Association of Insurance Commissioners (NAIC) differ from normal Generally Accepted Accounting Principles (GAAP).

These statements were reviewed from a UCT member's perspective. Questions were raised and explanations were given that provided the comfort level needed regarding the change in the Order's financial position at 2017 year-end vs 2016 year-end. One key indicator that we follow is the total surplus, which was down 2.1 percent from last year. Also noted was that net insurance premiums were up 3.5 percent and benefit claims paid out were down 4.1 percent. We see that as a positive trend towards management's objective of increasing premium revenue and improving profit margin.

A review of the final report of BKD on the statutory financial statements showed they do present fairly the financial position of the Order.

There have been no changes to the Canadian or U.S. investment policies. The Prime Advisors, Inc. report on both of the portfolios showed their investments were in full compliance with those investment policies. The A.M. Best rating at the time of this report continues to be a B+ with a re-evaluation due again this fall.

The Enterprise Risk Management (ERM) program is still in place and is being used to assess risks and make changes as needed to policy, procedure and plan.

The ERM committee monitors those key risks to the Order and makes suggestions to the Board if corrective action needs to be taken.

The Board and management continue to successfully monitor the cyber risks of the business. In reference to our IT structure, no new recommendations were made by the auditors as of 2017 year-end. No large expenditures were made in 2017, however, we can expect a large investment to be made in a new policy administration system in 2018-2019 as the current Genelco system license will expire.

The financial report for UCT Charities, Inc. was reviewed. Although the final audited report by Whalen & Co. had not been completed at the time of this review, the numbers on the report were supported by outside statements and internal supporting documentation so we feel confident in reporting these numbers to you. The surplus of the fund stands at \$3,803,742. Scholarships awarded by UCT Charities, Inc. for 2017 were 94 totaling \$47,620. An additional eight full-year scholarships totaling \$39,000 were paid out from the Heaston Scholarship Fund.

The final cost of holding the 2017 UCT Convention in Greenville, South Carolina, totaled out to be \$146,232.67. This was approximately \$10,000 less than the 2016 convention in Louisville, Kentucky.

A review of a sampling of the Board of Governors and senior management staff reimbursements was done and found to be in order.

The minutes of the Board of Governors meetings and the audit committee meetings for 2017 were reviewed.

The UCT home office is located in the Watermark Island office complex, operating under a lease agreement through July 2022.

Staffing at the home office was 50 employees and four temporary employees as of February 2018. A newly hired controller, Andrew Swetnam, CPA, was brought in to assist Kevin Hecker, CFO. This has allowed Kevin more time to spend on the functions of oversight and compliance.

The day-to-day management of the organization continues to be through the team of Kevin Hecker (Finance), Ron Ives (IT) and Sandy Shafer (Fraternal). Each of their functions is supported by a dedicated staff of employees, allowing them the time to oversee their functions and focus on the policies and plans as put forth by the Board. They continue to work toward the objectives of growing the insurance business, growing the surplus and growing the membership.

We wish to thank UCT President Numan Loafman for the opportunity to serve on this committee and to assist the membership in this way. A special thanks to Kevin Hecker, Ron Ives, Sandy Shafer and all the home office staff for their hospitality and support during the visit to the home office.

Rick Redman made a motion that the report be accepted and placed on file. Alan Poplewski seconded the motion, which passed unanimously.

Since the inception of this scholarship committee, we have been awarding scholarships to children and grandchildren of UCT members. Our scholarships are presently given in the amount of \$500 to recipients pursuing any vocation in their first four years of undergraduate studies.

The committee is made up of five Auxiliary Past Supreme Counselors appointed by the UCT International President and is headed by a chairman who is assisted by the vice-president, secretary-treasurer and two directors.

Each year at the international session the committee meets to review the applications received and thereafter forwards the list of recipients with pictures to the home office for publication in The Sample Case. Report of the Jurisprudence Committee

After examination of the 2018 proposed amendments to the UCT constitution, we make the following recommendations:

Proposed Amendment No. 1

Submitted by Past International President Thomas Smith, a member in good standing of Columbus, Ohio Council 1, and Past International President Gerald Thomas, a member in good standing of Columbus, Ohio Council 1.

Explanation: The constitution needs to be revised to minimize the number of years required for local council members who serve as line officers, executive committee members or chaplain to receive Past Counselor honors, or for Grand council members who serve as line officers, Grand treasurer or executive committee members to receive Past Grand Counselor honors.

Throughout the Supreme domain, local and Grand councils are having difficulty filling these positions for a six (6) year term. These constitutional revisions propose moving to a four (4) year term that will allow all officer positions to be in line with each other in receiving their local or Grand UCT honors.

This change shall not affect the local or regional secretary term in receiving honors at three (3) years.

Current

Article II, Section 2, Page 6, Lines 31-40

The title of past counselor shall be conferred on: any past senior counselor who shall have served for a term of one full year; any secretary-treasurer who shall have served for three full years; and any member of the executive committee or chaplain who shall have served for six full years. Also, anyone who has served as a line officer, chaplain and/or a member of the executive committee for a total of six years in the member's own or another council, as long as they are a council member, may receive, by a majority vote of the members present and voting at a meeting of the council, the title of past counselor.

Proposed

Amend Article II, Section 2, Page 6, Lines 31-40, to read:

The title of past counselor shall be conferred on: any past senior counselor who shall have served for a term of one full year; any secretary-treasurer who shall have served for three full years; and any member of the executive committee or chaplain who shall have served for four full years. Also, anyone who has served as a line officer, chaplain and/or a member of the executive committee for a total of four years in the member's own or another council, as long as they are a council member, may receive, by a majority vote of the members present and voting at a meeting of the council, the title of past counselor.

Brian Ward made a motion that the amendment be approved. Tom Rice seconded the motion, and it passed unanimously.

Proposed Amendment No. 2

Submitted by Past International President Thomas Smith, a member in good standing of Columbus, Ohio Council 1, and Past International President Gerald Thomas, a member in good standing of Columbus, Ohio Council 1.

Explanation: The constitution needs to be revised to minimize the number of years required for local council members who serve as line officers, executive committee members or chaplain to receive Past Counselor honors, or for Grand council members who serve as line officers, Grand treasurer or executive committee members to receive Past Grand Counselor honors.

Throughout the Supreme domain, local and Grand councils are having difficulty filling these positions for a six (6) year term. These constitutional revisions propose moving to a four (4) year term that will allow all officer positions to be in line with each other in receiving their local or Grand UCT honors.

This change shall not affect the local or regional secretary term in receiving honors at three (3) years.

Current

Article III, Section 4, Page 16, Lines 25-31

The title of past grand counselor shall be conferred on: any grand past counselor who shall have served as such for a term of one full year; any grand secretary who shall have served as such for three years; any grand treasurer and any member of the grand executive committee who shall have served as such for six full years; and anyone who shall have served as a line officer and a member of the grand executive committee for six years.

Proposed

Amend Article III, Section 4, Page 16, Lines 25-31, to read:

The title of past grand counselor shall be conferred on: any grand past counselor who shall have served as such for a term of one full year; any grand secretary who shall have served as such for three years; any grand treasurer and any member of the grand executive committee who shall have served as such for four full years; and anyone who shall have served as a line officer and a member of the grand executive committee for four years.

Doug Honeyford made a motion that the amendment be approved. Brian Ward seconded the motion, which passed unanimously.

Proposed Amendment No. 3

Submitted by the UCT Board of Governors: UCT President Numan Loafman, a member in good standing of Forth Worth Downtown Council 934, Fort Worth, Texas; UCT Chairman of the Board Gordon Woodworth, a member in good standing of Scotia Council 838, Halifax, Nova Scotia; UCT Vice President Chris Phelan, a member in good standing of Calgary North Council 1015, Calgary, Alberta; UCT Secretary-Treasurer Steve Desselles, a member in good standing of Baton Rouge, Louisiana Council 499; UCT Director Mary Applegate, a member in good standing of Fort Myers, Florida Council 900; UCT Director Dianna Wolfe, a member in good standing of Racine, Wisconsin Council 337; UCT Director Kenneth Milliser, a member in good standing of Columbus, Ohio Council 1; UCT Board member Glenn Suever, a member in good standing of Coldwater, Michigan Council 452; and UCT Board Member Dave Syrota, a member in good standing of Medicine Hat, Alberta Council 1020.

Explanation: The proposed constitutional changes are a result of an effort to “clean up” the UCT constitution. Where you see title changes, they are the new titles that the home office has been using for several years now. For consistency, we feel we should either embrace the updated titles or go back to the old titles.

Proposed

On the cover and throughout the entire constitution, remove the word “traditional,” replace the word Supreme with “international,” replace the word Grand with “region” or “regional,” replace the words Supreme Headquarters with “UCT Headquarters,” and replace the words Supreme Council Session with “UCT Convention.” References to past counselor, change to “past president;” references to past grand counselor, change to “past regional president;” and references to past supreme counselor, change to “past international president.”

References to the Manual of Operations for a Traditional Local Council should be changed to Local Council Guidelines. References to the Handbook for the Secretary of a Local Council should be deleted since this document is no longer used and contents are part of the Local Council Guidelines.

All changes are applicable except where otherwise specified.

Sid Toleno made a motion that the amendment be accepted. Doug Honeyford seconded the motion, and it passed unanimously.

Proposed Amendment No. 4

Report of the UCT in Action Committee

We're here to announce the winners of the regional and local council newsletter contests and the regional council website contest, recognize the 2017-2018 Join Hands Day projects, and report on the 2017-2018 International Safety Poster Contest.

As in the past, for the sake of time, certificates will be distributed and photos taken in the foyer immediately after the close of today's business session, so please gather out there.

We'll start with the newsletter contest winners. First, second and third place is awarded at both levels. The local council newsletters are judged in two divisions: 199 members or fewer and 200 members or more. Winning councils receive a certificate AND a cash prize, which will be direct deposited into the council's bank account soon after the convention.

We'll start with the regional council newsletter contest winners. There were only two contenders this year, so only first and second places were awarded:

First place	Manitoba-Saskatchewan Region - \$100
Second place	ACT-UCT Dominion Region - \$75

Now for the local council newsletter contest winners:

199 members or fewer

First Place	Edmonton, Alberta Council 1016 - \$100
Second Place	Sudbury, Ontario Council 1051 - \$75
Third Place	Thunder Bay, Ontario Council 1039 - \$50

200 members or more

First Place	Lincoln, Nebraska Council 104 - \$100
Second Place	Providence, Rhode Island Council 67 - \$75
Third Place	Chippewa Falls, Wisconsin Council 335 - \$50

Only one regional council submitted its website into the regional council website contest this year, so a certificate of appreciation will be presented after today's session to the New England Regional Council.

Unfortunately, the website contest will be discontinued in 2019 due to a lack of participation.

JOIN HANDS DAY 2018

Nearly 20 years ago Join Hands Day was established by America's fraternal benefit societies as a day of service to specifically target and develop relationship building between youth and adults by encouraging them to plan and carry out joint volunteer community service projects each year.

UCT local councils have been involved with Join Hands Day from its inception and

each year our members – and the youth they partner with – make a difference in their communities by coordinating local festivals, sprucing up local parks and facilities, supporting individuals with intellectual disabilities, and making life a little brighter for seniors.

Many thanks to those councils that made the effort to get involved in this year's event. Participating councils as of June 30, 2018, were:

Cranbrook, British Columbia Council 1023
Sudbury, Ontario Council 1051
Columbus, Ohio Council 1
Mile High Council 15, Denver, Colorado
Providence, Rhode Island Council 67
Janesville, Wisconsin Council 108

Salem, Ohio Council 590
Frontier Council 727, Cheyenne, Wyoming

If you or your local council are interested in Join Hands Day and would like more information, contact Linda Fisher at the home office or visit the Members' Area of UCT's website at www.uct.org.

2017-2018 International Safety Poster Contest Winners

Posters submitted this year in the public, private and parochial school and intellectual disabilities divisions focused on such issues as bullying and emotional safety, water and storm safety, fire safety, and the dangers of texting and driving.

The safety poster contest was again judged at the home office in Columbus, Ohio. We're not going to announce all of the contest winners, since a brochure of the winners and their posters was included in the delegate packets.

If your council would like your winning posters, ribbons and checks sent to you so that you can make a special presentation, notify Linda Fisher at the home office at lfisher@uct.org by no later than July 27. Otherwise, winning posters, ribbons and checks will be sent directly to the winners.

Morning Business Session

UCT President Numan Loafman called the meeting to order at 8:30 a.m. UCT Director Mary Applegate escorted UCT Chaplain Susan Vogel to the altar to open the Bible and give the day's invocation. UCT President Loafman then recognized the Roses for the Living Committee.

Report of the Roses for the Living Committee

It is my honor and privilege to present on behalf of the Ohio Delegation the Roses for the Living program. Every fraternal organization has traditions and the Roses for the Living program is certainly one of the most cherished in our Order.

First presented by Brother E.E. McCormick of Marietta Council 32 at the Ohio Grand Convention in 1931 and adopted by the Supreme body in 1937, the Roses for the Living program grew from Brother McCormick's desire to recognize those who have within the Order with a rose for their fraternalism while they could still enjoy them. His spirit of fraternalism carries on today.

The vision of roses for the living is captured in Brother McCormick's favorite poem:

One Little Rose

I would rather have one little rose
From the garden of a friend
Than to have the choicest flowers
When my stay on earth must end.

I would rather have a pleasant word
In kindness said to me,
Than flattery when my heart is still
And this life has ceased to be.

I would rather have a loving smile
From friends, I know are true
Than tears shed around my casket
When I bid this world adieu.

Bring me all the flowers today
Whether pink, or white, or red;
I'd rather have one blossom now
Than a truckload when I'm dead.

Each convention, only 18 roses are presented. And remember, if you do not receive a rose you are in on the giving. Please stand when your name is called.

Report of the State of the Order Committee

The State of the Order Committee has reviewed the pre-printed reports received by us prior to this session. These reports are included in your session packets. This committee encourages each of you to please read these reports and share the information in them with your local councils so they too can learn about the amazing ongoing fraternalism of this great Order.

President's Report

Brother Numan, we commend you on a job well done. You sure "Blazed New Trails for UCT." You had a very successful year but also a very challenging year. Scholarship continues to be disbursed to deserving students. Kudos to the team that initiated the 130 Challenge. Lots of energy put forth has resulted in excellent benefits and continues to make UCT move forward in the future. We thank you for all you do for UCT.

Board of Governors' Report

The Board of Governors had some difficult decisions to make during the past year in regard to the sale of insurance for our Canadian brothers and sisters. We thank you for your due diligence in this file and appreciate the time spent on this issue.

Home Office Operations Report

A loss for 2017 has been reported, due in part to the sales projection not being

met. Cease of sales of insurance in Canada took effect on April 25, 2018. The hiring of a new marketing manager at the beginning of 2017 has proven to be very successful. The website has been updated and modified to meet the needs of the membership.

Secretary-Treasurer's Report

Despite the fact that we had eight local councils close during the past year and suffered a loss of 6,057 in total membership, we had 6,713 new applications written. We are happy to report that 49 members under the age of 18 joined UCT in the last year.

Jurisprudence

Nine amendments to the UCT constitution were presented. All proposed amendments were approved.

Resolutions

No resolution were received.

Examining Finance

After reviewing the independent auditor's report it's been determined that Canada and the U.S. are in full compliance with regulations in both countries. In the auditor's opinion, the statutory financial statements present fairly in all material respects, assets, liabilities, surplus and other UCT funds as of the end of 2017, utilizing accounting best practices.

Overview

The presentations given by both CEO Joe Annotti from the American Fraternal Alliance and attorney Richard A. Barnhart managing partner of Ice Miller Legal Counsel were very informative and stimulating. The proposal of the creation of an Insurance Oversight Board (IOB) comprised of insurance professionals recruited from outside of the Order to oversee the insurance operations of the organization has been recommended by Richard Barnhart, and he has suggested that it be presented in the form of an amendment to the constitution at the 2019 convention.

Brother Keith Ward's presentation, "UCT: Why Should I Join? Why should I Stay?" was very motivational, interesting and to the point.

We take this opportunity to congratulate Sister Darlene Gillies for being awarded the Volunteer of the Year award. Congratulations to Sister Kathy Chisolm for being the writer of the year with 50 plus members signed.

Finally, the State of the Order Committee wishes to thank all the committees for their promptness in submitting their reports. The State of the Order Committee also wishes to thank UCT President Numan Loafman for providing us with the opportunity to serve on this committee.
